Protecting the Municipality and Residents from Municipal Risk

Urban municipalities have a unique responsibility to protect both the municipality and the public interest by keeping urban communities safe for their residents and commercial taxpayers. This presentation will provide valuable information for urban councils and administration to adequately protect both interests, and to develop effective risk management for their community.

From Conflict to Constructive Dialogue in Your Community

Urban municipal officials and administrators often face intense pressures from citizens that can lead to harassment. This interactive session will explore how to transform these challenging encounters into opportunities for constructive dialogue and collaboration. Using a theatrical coaching approach, this session will empower participants with practical tools to defuse heated situations, maintain professionalism, and foster a culture of respect. Engage in real-time scenarios, learn how to identify harassment triggers, set firm boundaries with empathy, and communicate with clarity under pressure. These strategies will help municipal leaders remain resilient, compassionate, and effective, even in the most confrontational situations.

7:00 p.m. – 11:00 p.m. President's Gala

Enjoy a plated dinner while being entertained with comedy and magic by our MC Trevor Moore. Following dinner awards will be presented, recognizing the contributions of fellow long-serving elected officials and municipal employees who have dedicated themselves to their communities. We'll close out the night with a live band and dance. The President's Gala is a night of celebration you won't want to miss!

Modeling Respect: Best Practices for Urban Council Meetings

Imagine a council meeting where diverse opinions are expected and respected. This engaging meeting simulation models strong council meeting etiquette with respectful dialogue among officials while deliberating contentious agenda items. Participants and observers learn how diverse opinions add value to the decision-making process. This is an interactive workshop with volunteer participation.

Further to the SAMA delegation at the February 10, 2025, Regular meeting, under the revaluation of properties all agricultural parcels will be treated as per Section 198 Subsection (8) of *The Municipalities Act*, as follows:

“If a person uses a parcel of land in a municipality other than a rural municipality exclusively for farming purposes, or operates a number of parcels of land as one farming unit, and the parcel or number of parcels is two hectares or more in area:

- (a) the parcel or parcels are to be assessed using the market valuation standard with respect to the first two hectares; and
- (b) the remainder of the land is to be assessed at the rates established for agricultural land pursuant to the assessment manual.

This was a mistake that was corrected by SAMA for the 2025 Assessment Revaluation.
